

pizzato

Pushbuttons and Controls

note1: Actuator/Lens can be an indicator lens, push button, lever switch, key switch

note2: Mounting adaptor is required with every device. 4 slot adaptors are only intended to be used with actuators that can indepently actuate all 4 contacts

note3: Contact blocks are only used on actuators. i.e. not used on indicators

note4: Illumination blocks can only be used on indicators lens and actuators which have the illumination option.
