

# RM-16WAY-24VDC RELAY MODULE

#### **RM-16WAY-24VDC Relay Module**

The relay module provides 16 relays, either mechanical 46.61-024-DC relays or SSR-EDxxC5 solid state relays. The relay module can be populated with a mixture of mechanical relays and solid state relays to suit the loads being switched.

Relay control can be made via terminals or through a 20 way ribbon cable connected to a PLC.

There are terminals for an external 24V DC supply which will power the PLC interface when driving the relays from a PLC via the ribbon cable.

Order code:
